### ***Spring/Summer Products***

There are some new products for Spring in a couple of months. One of the items could be of interest as it features a new type of fabric. This is Cocona which is based on coconut shells. This may sound strange to you, but some advantages are claimed. Take a look at the website <[www.coconafibres.com](http://www.coconafibres.com)> for further information. If you click on the "How Cocona Works" link, you can learn more about the fibre.

There are products for Ladies and Men, and they are in the ***Maier MPT Range*** which is their top line of clothing. There will only be a limited quantity of items available, and they will probably be expensive due to the current exchange rate of the Euro.

### ***Special Offers***

***All the existing Spring/Summer ranges are reduced to half price. You can see some of the items on the website under "Ladies Special Offers", but it is probably better to see the full range.***

Please phone, or e-mail to arrange a suitable time to view the range.

Please note the prices shown on the website are slightly higher than available with this offer from the newsletter.

### ***Website***

Please use the link from the Home Page to the clothing section, or Bookmark the page if you are likely to return there

<<http://www.racquet-technic.co.uk>>

### ***Racket Sports***

There is a section on the website with information about rackets, strings, and general topics. You can use a link from the Home Page. There is a separate newsletter for racket sports.

### ***Next Issue***

The next edition of the newsletter will be sent to arrive by April, which will include the latest information on the ranges of clothing.
